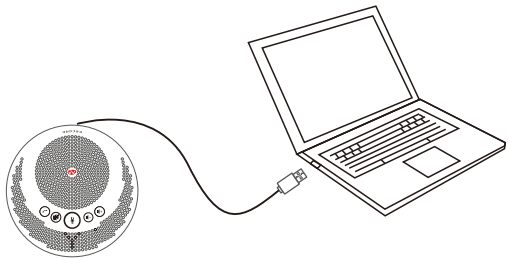
4. HOW TO USE SV13U
4.1 Charging for Preparation

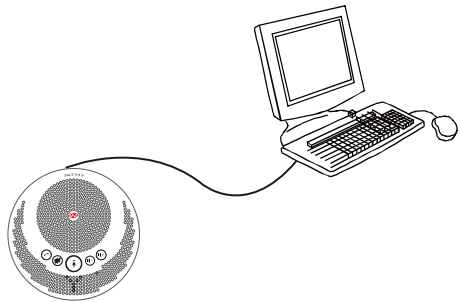
Use the supplied USB cable start charging.
Power can be transmitted by connecting the product to a computer.



4.3 Connection Steps for USB

Connect the PC or video system to SV13U USB port with USB cable.
It will take a few seconds to install the driver automatically for the first setup.

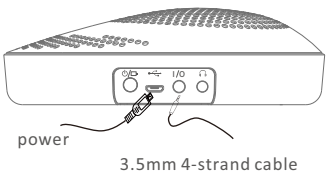
Note: Right-click the speaker icon at the bottom right of the PC screen and click“Sound”.
The “Sound” screen is displayed. Click the “Playback” and “Recording” tabs and check that “EACOME SV13” is set as the default device.If it is not set as the default device, click “EACOME SV13” and click “Set Default”.

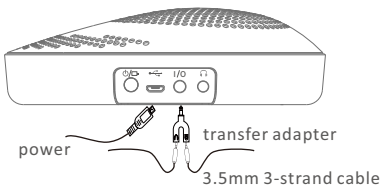


4.4 IN/OUT Connection

Use a 3.5mm 4-strand cable to connect your phone or computer device to the "I/O" port of the phone.
If the device connection port is a 3.5mm 3-strand port, you need a transfer adapter for connecting.Insert audio transfer plug into the "I/O" port of SV13U. Connect the microphone" " port and speaker" " port of Audio Transfer plug to the IN/OUT port of the PC or video conferencing system with two 3.5mm 3-strand cable.

Note:Please set the phone LINE IN/OUT mode to "PC Mode"when device is PC or video devices.Or set the phone LINE IN/OUT mode to "Mobile Mode" while connecting a smartphone.



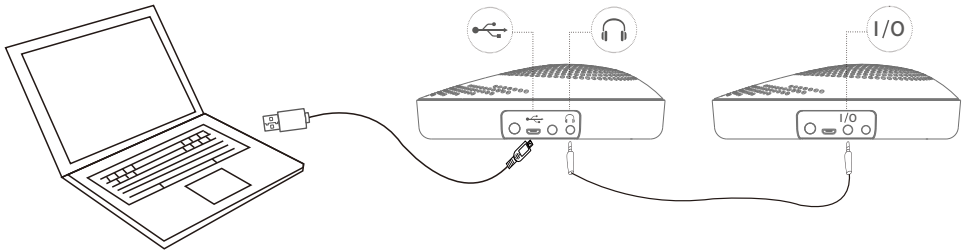


4.5 Multi-party Conference Call & Line Mode Selection

SV13U allows you to hold conference calls via analog LINE IN/OUT , USB VOIP simultaneously.
All above network will be mixed automatically.You can add another line or switch between connected lines during a call freely.
SV13U supports plug and play for the above kinds of lines conveniently.
It is no need to undertake any settings , anytime and anyway.

4.6 Daisy Chain Function

SV13U has daisy chain function. For meeting rooms larger than 30m^2, you can use the daisy chain function and link two SV13U, the microphone gather coverage can extend up to 8m, and the sound quality will be the same good.



5. OTHER FUNCTIONS

5.1 Checking the Speaker Volume Level

The volume is 16 levels, the first level is the speaker mute, the 16th level is the maximum.
The brightness of status LED will increase or decrease with the speaker volume up or down.

6. HOW TO CARE FOR YOUR EACOME SPEAKERPHONE SV13U

Always store the EACOME speakerphone SV13U with the power off and safely protected. Avoid storage at extreme temperatures (above 70°C/158°F or below -20°C/-4°F). This can shorten battery life and may affect operation. High temperatures may also degrade performance.
Do not expose the EACOME speakerphone SV13U to rain or other liquids.
